RESOLUTION 5-19-2025A

Resolution Approving a Moratorium on Community Solar

WHEREAS, Community Solar is several solar energy systems whose primary purpose is to harvest energy by transforming solar energy into another form of energy or transferring heat from a collector to another medium using mechanical, electrical, or chemical means; and

WHEREAS, the Tama County Board of Supervisors have been made aware during the Zoning Commission meetings this year about Community Solar, and the lack of an ordinance for Community Solar in Tama County's Zoning Ordinance Number VI.1 published July 7, 1998; and

WHEREAS, concerns have been raised by the public regarding Tama County's level of preparedness when it comes to the development of Community Solar within the county. There currently isn't an ordinance to regulate the setback distances, finances in place for decommissioning, permitting process, the agricultural impact any future Community Solar projects would have on the County's agricultural resources including whether such impact would run counter to Tama County's Comprehensive Land Use Plan adopted by the Tama County Board of Supervisors on May 5, 2025; and

WHEREAS, the County has an interest in protecting the County's infrastructure, natural resources and property rights through adequate setback provisions; and

WHEREAS, The Tama County Board of Supervisors wishes to enact a moratorium effective immediately upon passage on the development and construction of Community Solar, and the application for permits relating to such development and construction of Community Solar, for an indefinite amount of time, to allow Tama County to review and update the language as necessary in the Tama County Zoning Ordinance and to incorporate the information and concerns that have arisen through the public meetings held by the Zoning Commission, relating to such matters;

NOW, THEREFORE, be it resolved by the Board of Supervisors of Tama County, Iowa, that a moratorium on the development and construction of Community Solar, and the application for permits relating to such development and construction of Community Solar effective immediately upon passage is approved indefinitely.

Elizabeth Ledvina, Tama County VA Director, and Darrel Niedermann, VA Commissioner, was present to discuss her FY26 budget with the Board of Supervisors. She stated due to the board decreasing her salary fund line there will not be enough in the VA budget to cover her part-time wages along with the new VA Director's wages and her commissioner's wages in the new fiscal year. Ledvina stated the new VA Director will not be certified before she retires on July 1st. She needs to continue as part-time after July 1st to help cover since he won't be certified. The board asked if another county could help cover. Ledvina stated that would be a burden to other counties. She stated she currently helps other counties out. The board stated they never intended to not pay the VA commissioners. This will be revisited to see if a budget amendment needs to be done after the new fiscal year begins.
